Predictions vs true by model (rows) and CV scheme (cols)

Columns: naive, block, block_buffered, walk_forward

Rows: kernel, spline, xgb

kernel:
- naive: param=10.00 | test=1.13
- block: param=159.66 | test=0.96
- block_buffered: param=159.66 | test=1.03
- walk_forward: param=20.69 | test=1.12

spline:
- naive: param=0.01 | test=6.27
- block: param=10000.00 | test=1.05
- block_buffered: param=10000.00 | test=1.06
- walk_forward: param=10000.00 | test=0.98

xgb:
- naive: param=6.00 | test=1.16
- block: param=2.00 | test=1.05
- block_buffered: param=2.00 | test=1.07
- walk_forward: param=2.00 | test=1.10

Legend: true y, train pred, test pred
